WHO WE ARE

Established in 1982, Cariboo Industrial Electric has become one of North America's top quality Electrical Contractors.

CIE's reputation as a top quality industrial electrical contractor quickly grew, establishing CIE as one of the premier contractors in the sector. With loyalty from CIE's employees and customers, CIE's service area rapidly expanded beyond the Cariboo to cover all of Western Canada. Fast Forward to 2017, CIE continues to grow with a new office in Atlanta, Georgia! CIE services now cover all of western Canada and the Southern United States.

DEDICATION

Cariboo Industrial Electric knows that being in business for over 30 years does not happen by accident. It takes dedication to customers and employees to make any company a long term success. CIE has achieved this by not forgetting how it started.

CIE was founded in 1982 when Murray Hewitt started working for CIE's first customer. Today the tradition continues as Rob Hewitt and the Cariboo Team continue to work for not only that same customer, but a network of new and returning clients.

SAFETY

Cariboo Industrial Electric Ltd. is committed to safety and is determined to promote safe and healthy working conditions and attitudes within the Company. This is achieved through cooperation between management, field supervisors and employees.

Part of CIE's commitment to safety is to ensure an ever evolving OH&S program. This is achieved through audits, training programs, safety meetings and hazard assessments.

CIE has developed a safety program that focuses on the health and safety of each employee, while at the same time not taking away from the productivity of the project. The safety management team at CIE has worked hard to create a safety program that is engaging to employees and creates a positive and productive work environment.
